

Alberta Microsoft Partner Giving Away \$5,000 in New Computer Systems

Bulletproof InfoTech has brought together industry leaders in the Small Business Technology community to offer an Alberta based business \$5,000.00 in new technology to help maintain the Alberta Advantage.

Red Deer, AB – 14 May 2009 - Bulletproof InfoTech, a Microsoft Gold Partner and Small Business Specialist with locations in Red Deer and Calgary has announced their Small Business Stimulus Package for business available throughout the Province of Alberta.

It is a well-kept secret in the business community; those firms that embrace information technology have a proven advantage in today's new economy. Those companies that invest in the leading information technology solutions maintain a healthier work environment, enjoy stronger revenues, have higher levels of efficiencies and create shareholder value.

The United States banking industry continues to receive their TARP funds, the big three automakers have their hands out and benefit from taxpayer dollars to keep their heads above water. It seems today that many large corporations are asking for a bailout. What about the Alberta Small Business?

Who is going to take care of your business? Many business owners continue to worry about cash flow, making ends meet, generating new sales and managing staffing needs. The question that many small businesses are asking is: are we eligible for taxpayer funds to help our business?

Bulletproof InfoTech cares about your business and ensuring that the Alberta community remains strong. The Small Business Technology Stimulus Package has been designed to help business achieve results by providing access to critical IT solutions and services. A Successful candidate will be judged from the Calgary and Red Deer business communities and will be awarded the following technology solutions:

- DELL Optiplex Business Computers
- DELL Laser Printer
- Internet Security from SonicWALL
- Blackberry Smartphone provided by Research in Motion
- Computer Training Packages from Operitel Corporation
- Security Tokens from Scorpion Software
- Microsoft Zune MP3 player from Microsoft
- Microsoft Office 2007 and Windows Vista
- Internet Services from WiBand Communications
- Website review by eKzact Solutions
- One year netSHIELD Basic services from Bulletproof InfoTech

"When Alberta entered the recession many small business owners became concerned about making ends meet. The need for a competitive advantage has never been more important. The Bulletproof Small Business Technology Stimulus provides \$5,000.00 in new computer technology to a successful candidate in our Calgary and Red Deer locations. This step up will ensure the Alberta Advantage is maintained" states Jeff Anderson, President of Bulletproof InfoTech.

Suzy Dietrich runs a highly successful marketing consulting business in Calgary. As the President of Down to Earth Productions she comments on the importance of technology in her business, "just try living without it for a day... no phone, no computer, no internet... see how much work you get done. None!". The right solutions can have a positive impact on business throughout Alberta.
